

Dr. Timothy Wilson Biography

Dr. Wilson is an Associate Professor at the University of Western Ontario's Schulich School of Medicine and Dentistry. He teaches anatomy and conducts educational research. He is also a passionate brewer and farmer. Along with his wife Melanie, they own and operate an organic hop yard and on-farm brewery. They are located in the Carolinian forest of the Norfolk County sand belt. It is a fragile place environmentally. Accordingly, their modus operandi is to use many local ingredients and to grow and maintain their hops in a closed loop fashion. Their award-winning beers flow from the organic hop production reflecting sustainable production and the unique terroir of their farm.
