Management's Discussion and Analysis

The following Management's Discussion and Analysis ("MD&A") for George Weston Limited ("GWL" or the "Company") should be read in conjunction with the Company's third quarter 2024 unaudited interim period condensed consolidated financial statements and the accompanying notes ("interim financial statements") of this Quarterly Report, the audited annual consolidated financial statements and the accompanying notes for the year ended December 31, 2023 and the related annual MD&A included in the Company's 2023 Annual Report.

The Company's third quarter 2024 interim financial statements are prepared in accordance with International Accounting Standard ("IAS") 34, "Interim Financial Reporting", as issued by the International Accounting Standards Board. These interim financial statements include the accounts of the Company and other entities that the Company controls and are reported in Canadian dollars, except where otherwise noted.

Under International Financial Reporting Standards ("IFRS Accounting Standards" or "GAAP"), certain expenses and income must be recognized that are not necessarily reflective of the Company's underlying operating performance. Non-GAAP and other financial measures exclude the impact of certain items and are used internally when analyzing consolidated and segment underlying operating performance. These non-GAAP and other financial measures are also helpful in assessing underlying operating performance on a consistent basis. See Section 9, "Non-GAAP and Other Financial Measures", of this MD&A for more information on the Company's non-GAAP and other financial measures.

The Company operates through its two reportable operating segments: Loblaw Companies Limited ("Loblaw") and Choice Properties Real Estate Investment Trust ("Choice Properties"). The effect of consolidation includes eliminations, intersegment adjustments and other consolidation adjustments. Cash and short-term investments and other investments held by the Company, and all other company level activities that are not allocated to the reportable operating segments, such as net interest expense, corporate activities and administrative costs are included in GWL Corporate. For further details on the effect of consolidation, refer to Section 9, "Non-GAAP and Other Financial Measures", of this MD&A. Loblaw has two reportable operating segments, retail and financial services. Loblaw's retail segment consists primarily of food retail and drug retail. Loblaw provides Canadians with grocery, pharmacy and healthcare services, health and beauty products, apparel, general merchandise and financial services. Choice Properties owns, manages and develops a high-quality portfolio of commercial and residential properties across Canada. In this MD&A, unless otherwise indicated, "Consolidated" refers to the consolidated results of GWL including its subsidiaries.

A glossary of terms and ratios used throughout this Quarterly Report can be found beginning on page 160 of the Company's 2023 Annual Report.

This MD&A contains forward-looking statements, which are subject to risks and uncertainties that could cause the Company's actual results to differ materially from the forward-looking statements. For additional information related to forward-looking statements, material assumptions and material risks associated with them, see Section 6, "Enterprise Risks and Risk Management", Section 8, "Outlook" and Section 10, "Forward-Looking Statements" of this MD&A.

The information in this MD&A is current to November 18, 2024, unless otherwise noted.

Management's Discussion and Analysis

1. Overall Financial Performance

Loblaw reported consistent operational and financial performance in the third quarter as it continued to provide value to Canadians across its retail network, while maintaining its focus on retail excellence. Drug retail sales growth outperformed food retail in the quarter. Drug front store sales reflected continued strength in the beauty category but were pressured by Loblaw's exit from certain low margin electronics categories and lower customer spend on convenience items. Pharmacy and healthcare services revenue increased due to ongoing strength in acute and chronic prescriptions. Food retail stores attracted increased customer visits in the quarter, despite Thanksgiving holiday sales shifting into the fourth quarter this year. Food sales growth reflected the ongoing strength of Loblaw's Maxi and NoFrills hard discount stores, and its growing selection of multicultural foods across its banners, anchored by strong performance in the T&T banner. In the quarter, Loblaw continued to invest in its network of stores, including opening 25 new hard discount stores and piloting two new ultra-discount no name[®] stores.

Choice Properties delivered strong operational and financial results in the third quarter, driven by increasing demand from retail tenants for its necessity-based neighbourhood centres and strong leasing spreads in its industrial portfolio. Choice Properties continues to leverage its size and financial strength, with \$172 million of real estate transactions and over \$125 million of financings completed in the third quarter, further improving the quality of its market leading portfolio and the strength of its balance sheet.

1.1 Consolidated Results of Operations

The Company operates through its two reportable operating segments: Loblaw and Choice Properties, each of which are publicly traded entities. As such, the Company's financial statements reflect and are impacted by the consolidation of Loblaw and Choice Properties. The consolidation of these entities into the Company's financial statements reflect the impact of eliminations, intersegment adjustments and other consolidation adjustments, which can positively or negatively impact the Company's consolidated results. Additionally, cash and short-term investments and other investments held by the Company, and all other company level activities that are not allocated to the reportable operating segments, such as net interest expense, corporate activities and administrative costs are included in GWL Corporate. To help our investors and stakeholders understand the Company's financial statements and the effect of consolidation, the Company reports its results in a manner that differentiates between the Loblaw segment, the Choice Properties segment, the effect of consolidation of Loblaw and Choice Properties, and lastly, GWL Corporate.

The Company's results reflect the year-over-year impact of the fair value adjustment of the Trust Unit liability as a result of the significant changes in Choice Properties' unit price, recorded in net interest expense and other financing charges. The Company's results are impacted by market price fluctuations of Choice Properties' Trust Units on the basis that the Trust Units held by unitholders, other than the Company, are redeemable for cash at the option of the holder and are presented as a liability on the Company's consolidated balance sheet. The Company's financial results are negatively impacted when the Trust Unit price increases and positively impacted when the Trust Unit price declines.

Management's Discussion and Analysis

NET EARNINGS AVAILABLE TO COMMON SHAREHOLDERS OF THE COMPANY

Net earnings available to common shareholders of the Company in the third quarter of 2024 were \$15 million (\$0.08 per common share), a decrease of \$595 million (\$4.33 per common share) compared to the same period in 2023. The decrease was due to the unfavourable year-over-year net impact of adjusting items totaling \$605 million (\$4.54 per common share), partially offset by an improvement of \$10 million (\$0.21 per common share) in the consolidated underlying operating performance of the Company.

The unfavourable year-over-year net impact of adjusting items totaling \$605 million (\$4.54 per common share) was primarily due to:

- the unfavourable year-over-year impact of the fair value adjustment of the Trust Unit liability of \$787 million (\$5.90 per common share) as a result of the increase in Choice Properties' unit price in the third quarter of 2024;

partially offset by,

- the favourable year-over-year impact of the fair value adjustment on Choice Properties' investment in real estate securities of Allied Properties Real Estate Investment Trust ("Allied") of \$95 million (\$0.70 per common share) as a result of the increase in Allied's unit price;
- the favourable impact of the recovery related to a President's Choice Bank ("PC Bank") commodity tax matter at Loblaw of \$66 million (\$0.50 per common share). Refer to Section 2.1, "Loblaw Operating Results", of this MD&A for further information; and
- the favourable year-over-year impact of the fair value adjustment on investment properties of \$33 million (\$0.25 per common share) driven by Choice Properties, net of the effect of consolidation.

Adjusted net earnings available to common shareholders of the Company⁽¹⁾ in the third quarter of 2024 were \$476 million, an increase of \$10 million, or 2.1%, compared to the same period in 2023. The increase was driven by the favourable year-over-year impact of \$19 million from the contribution of the publicly traded operating companies, partially offset by the unfavourable year-over-year impact of \$9 million at GWL Corporate due to an increase in income tax expense as a result of GWL's participation in Loblaw's Normal Course Issuer Bid ("NCIB") program and the impact of other non-deductible items, and an increase in adjusted net interest expense and other financing charges⁽¹⁾.

Adjusted diluted net earnings per common share⁽¹⁾ were \$3.57 in the third quarter of 2024, an increase of \$0.21 per common share, or 6.3%, compared to the same period in 2023. The increase was due to the performance in adjusted net earnings available to common shareholders⁽¹⁾ as described above and the favourable impact of shares purchased for cancellation over the last 12 months (\$0.13 per common share) pursuant to the Company's NCIB program.

Year-to-date net earnings available to common shareholders of the Company were \$651 million (\$4.80 per common share) compared to \$1,534 million (\$10.98 per common share), a decrease of \$883 million (\$6.18 per common share) compared to the same period in 2023. The decrease was due to the unfavourable year-over-year net impact of adjusting items totaling \$940 million (\$6.92 per common share), partially offset by an improvement of \$57 million (\$0.74 per common share) in the consolidated underlying operating performance of the Company.

The unfavourable year-over-year net impact of adjusting items totaling \$940 million (\$6.92 per common share) was primarily due to:

- the unfavourable year-over-year impact of the fair value adjustment of the Trust Unit liability of \$848 million (\$6.17 per common share) as a result of the increase in Choice Properties' unit price;
- the unfavourable impact of charges related to the settlement of class action lawsuits of \$253 million (\$1.89 per common share). Refer to Section 1.2, "Consolidated Other Business Matters", of this MD&A for further information; and
- the unfavourable year-over-year impact of the fair value adjustment on investment properties of \$45 million (\$0.31 per common share) driven by Choice Properties, net of the effect of consolidation;

partially offset by,

- the favourable year-over-year impact of the fair value adjustment on Choice Properties' investment in real estate securities of Allied of \$84 million (\$0.60 per common share) as a result of the increase in Allied's unit price;
- the favourable year-over-year impact of the (recovery) charge related to PC Bank commodity tax matters at Loblaw of \$81 million (\$0.60 per common share); and
- the favourable impact of the reversal of a transaction related provision of \$39 million (\$0.29 per common share) that was determined to be no longer required at Choice Properties.

Year-to-date adjusted net earnings available to common shareholders of the Company⁽¹⁾ were \$1,182 million, an increase of \$57 million, or 5.1%, compared to the same period in 2023. The increase was driven by the favourable year-over-year impact of \$51 million from the contribution of the publicly traded operating companies and the favourable year-over-year impact of \$6 million at GWL Corporate primarily due to the year-over-year impact of the fair value adjustment on other investments, partially offset by an increase in income tax expense as a result of GWL's participation in Loblaw's NCIB program and the impact of other non-deductible items, and an increase in adjusted net interest expense and other financing charges⁽¹⁾.

Adjusted diluted net earnings per common share⁽¹⁾ were \$8.77 per common share, an increase of \$0.74 per common share, or 9.2%, compared to the same period in 2023. The increase was due to the performance in adjusted net earnings available to common shareholders⁽¹⁾ as described above and the favourable impact of shares purchased for cancellation over the last 12 months (\$0.33 per common share) pursuant to the Company's NCIB program.

Management's Discussion and Analysis

Year-to-date financial services adjusted EBITDA⁽¹⁾ increased by \$58 million compared to the same period in 2023, primarily driven by higher revenue as described above, lower customer acquisition expenses and operating costs, including the ongoing benefits associated with the renewal of a long-term agreement with Mastercard, and the year-over-year favourable impact of the expected credit loss provision, partially offset by higher contractual charge-offs due to the current macro-economic environment, and higher loyalty program costs.

DEPRECIATION AND AMORTIZATION Loblaw depreciation and amortization in the third quarter of 2024 was \$903 million, an increase of \$23 million compared to the same period in 2023, primarily driven by an increase in depreciation of IT assets and leased assets, and an increase in depreciation of fixed assets related to conversions of retail locations. Year-to-date depreciation and amortization was \$2,272 million, an increase of \$46 million compared to the same period in 2023. The increase was primarily driven by an increase in depreciation of IT assets and leased assets, and an increase in depreciation of fixed assets related to conversions of retail locations, partially offset by the impact of prior year accelerated depreciation due to the reassessment of the estimated useful life of certain IT assets.

Depreciation and amortization in the third quarter of 2024 and year-to-date included the amortization of intangible assets related to the acquisitions of Shoppers Drug Mart and Lifemark of \$155 million (2023 – \$154 million) and \$384 million (2023 – \$384 million), respectively.

The increase in non-controlling interests in the third quarter of 2024 and year-to-date was primarily driven by an increase in franchisee earnings after profit sharing.

LOBLAW OTHER BUSINESS MATTERS

PC Bank Commodity Tax Matters In July 2022, the Tax Court of Canada ("Tax Court") released a decision relating to PC Bank, a subsidiary of Loblaw. The Tax Court ruled that PC Bank is not entitled to claim notional input tax credits for certain payments it made to Loblaw's Inc. in respect of redemptions of loyalty points. PC Bank subsequently filed a Notice of Appeal with the Federal Court of Appeal ("FCA") and in March 2024, the matter was heard by the FCA. In August 2024, the FCA released its decision and reversed the decision of the Tax Court. As a result, PC Bank reversed charges of \$155 million, including \$111 million initially recorded in the second quarter of 2022. In addition, \$10 million was recorded related to interest income on cash tax refunds.

In the second quarter of 2023, the Federal government enacted certain commodity tax legislation that applied to PC Bank on a retroactive basis. A charge of \$37 million, inclusive of interest, was recorded for this matter. In the fourth quarter of 2023, Loblaw reversed \$13 million of previously recorded charges. The reversal was a result of new guidance issued by the Canada Revenue Agency.

5. Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining a system of disclosure controls and procedures to provide reasonable assurance that all material information relating to the Company and its subsidiaries is gathered and reported to senior management on a timely basis so that appropriate decisions can be made regarding public disclosure.

Management is also responsible for establishing and maintaining adequate internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with IFRS Accounting Standards.

In designing such controls, it should be recognized that due to inherent limitations, any control, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and may not prevent or detect misstatements. Additionally, management is required to use judgment in evaluating controls and procedures.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING There were no changes in the Company's internal control over financial reporting in the third quarter of 2024 that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

6. Enterprise Risks and Risk Management

A detailed full set of risks inherent in the Company's business are included in the Company's Annual Information Form ("AIF") for the year ended December 31, 2023 and the MD&A included in the Company's 2023 Annual Report, which are hereby incorporated by reference. The Company's 2023 Annual Report and AIF are available at www.sedarplus.ca. Those risks and risk management strategies remain unchanged.

7. IFRS Accounting Standards and Amendments

Amendments to IAS 7 and IFRS 7 In May 2023, amendments to IAS 7, "Statement of Cash Flows" and IFRS 7, "Financial Instruments: Disclosures" were issued to enhance the transparency of supplier finance arrangements. The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and required disclosures will be included in the notes to the Company's 2024 audited annual consolidated financial statements.

For details on future IFRS accounting standards and amendments not yet in effect, refer to note 3, "Future IFRS Accounting Standard and Amendments", of the Company's third quarter 2024 interim financial statements.

Management's Discussion and Analysis

8. Outlook⁽²⁾

The Company continues to expect adjusted net earnings⁽¹⁾ to increase due to the results from its operating segments, and to use excess cash to repurchase shares.

Loblaw Loblaw will continue to execute on retail excellence while advancing its growth initiatives with the goal of delivering consistent operational and financial results in 2024. Loblaw's businesses remain well positioned to meet the everyday needs of Canadians.

For the full-year 2024, Loblaw continues to expect:

- its retail business to grow earnings faster than sales; and
- to return capital to shareholders by allocating a significant portion of free cash flow to share repurchases.

Based on its year-to-date operating and financial performance and momentum exiting the third quarter, Loblaw is slightly increasing its guidance for full year adjusted net earnings per common share⁽¹⁾ growth from high single-digits into the low double-digits.

Additionally, based on the year-to-date investments in its store network and distribution centres, Loblaw now expects to invest a net amount of \$1.9 billion in capital expenditures (previously \$1.8 billion), which reflects gross capital investments of approximately \$2.3 billion (previously \$2.2 billion), net of approximately \$400 million of proceeds from property disposals.

Choice Properties Choice Properties is focused on capital preservation, delivering stable and growing cash flows and net asset value appreciation, all with a long-term focus. Its high-quality portfolio is primarily leased to necessity-based tenants and logistics providers, who are less sensitive to economic volatility and therefore provide stability to its overall portfolio. Choice Properties continues to experience positive leasing momentum across its portfolio and has successfully completed the majority of its 2024 lease renewals. Choice Properties also continues to advance its development program, with a focus on commercial developments in the near term, which provides the best opportunity to add high-quality real estate to its portfolio at a reasonable cost and drive net asset value appreciation over time.

Choice Properties is confident that its business model, stable tenant base, strong balance sheet and disciplined approach to financial management will continue to position the business well for future success. In 2024, Choice Properties will continue to focus on its core business of essential retail and industrial, its growing residential platform and its robust development pipeline, and is targeting:

- stable occupancy across the portfolio, resulting in 2.5% - 3.0% year-over-year growth in Same-Asset NOI, cash basis⁽¹⁾;
- annual FFO⁽¹⁾ per unit diluted⁽¹⁾ in a range of \$1.02 to \$1.03, reflecting 2.0% - 3.0% year-over-year growth; and
- strong leverage metrics, targeting Adjusted Debt to EBITDA⁽¹⁾ below 7.5x.

(i) For more information on these measures see the 2023 Annual Report filed by Choice Properties, which is available on www.sedarplus.ca or at www.choicereit.ca.

9. Non-GAAP and Other Financial Measures

The Company uses non-GAAP and other financial measures and ratios in this document, such as: adjusted EBITDA and adjusted EBITDA margin, adjusted net earnings attributable to shareholders of the Company, adjusted net earnings available to common shareholders of the Company, adjusted diluted net earnings per common share, effect of consolidation, rolling year adjusted return on average equity attributable to common shareholders of the Company, rolling year adjusted return on capital, GWL Corporate free cash flow, free cash flow and Choice Properties Funds from Operations, among others. In addition to these items, the following measures are used by management in calculating adjusted diluted net earnings per common share: adjusted operating income, adjusted net interest expense and other financing charges, adjusted earnings before income taxes, adjusted income taxes and adjusted effective tax rate. The Company believes these non-GAAP and other financial measures provide useful information to both management and investors with regard to accurately assessing the Company's financial performance and financial condition for the reasons outlined below.

Further, certain non-GAAP measures and other financial measures of Loblaw and Choice Properties are included in this document. For more information on these measures, refer to the materials filed by Loblaw and Choice Properties, which are available on www.sedarplus.ca or at www.loblaw.ca or www.choicereit.ca, respectively.

Management uses these and other non-GAAP and other financial measures to exclude the impact of certain expenses and income that must be recognized under GAAP when analyzing underlying consolidated and segment operating performance, as the excluded items are not necessarily reflective of the Company's underlying operating performance and make comparisons of underlying financial performance between periods difficult. The Company adjusts for these items if it believes doing so would result in a more effective analysis of underlying operating performance. The exclusion of certain items does not imply that they are non-recurring.

These measures do not have a standardized meaning prescribed by GAAP and therefore they may not be comparable to similarly titled measures presented by other publicly traded companies, and should not be construed as an alternative to other financial measures determined in accordance with GAAP.

ADJUSTED EBITDA The Company believes adjusted EBITDA is useful in assessing and making decisions regarding the underlying operating performance of the Company's ongoing operations and in assessing the Company's ability to generate cash flows to fund its cash requirements, including its capital investment program.

The following table reconciles adjusted EBITDA to operating income, which is reconciled to GAAP net earnings attributable to shareholders of the Company reported for the periods ended as indicated.

(i) Depreciation and amortization for the calculation of adjusted EBITDA excludes amortization of intangible assets acquired with Shoppers Drug Mart and Lifemark, recorded by Loblaw.

The following items impacted adjusted EBITDA in 2024 and 2023:

Amortization of intangible assets acquired with Shoppers Drug Mart and Lifemark The acquisition of Shoppers Drug Mart in 2014 included approximately \$6 billion of definite life intangible assets, which are being amortized over their estimated useful lives. Annual amortization associated with the acquired intangible assets will be approximately \$500 million until 2024 and will decrease thereafter.

The acquisition of Lifemark in 2022 included approximately \$299 million of definite life intangible assets, which are being amortized over their estimated useful lives.

(Recovery) charge related to PC Bank commodity tax matters In July 2022, the Tax Court released a decision relating to PC Bank, a subsidiary of Loblaw. The Tax Court ruled that PC Bank is not entitled to claim notional input tax credits for certain payments it made to Loblaw's Inc. in respect of redemptions of loyalty points. PC Bank subsequently filed a Notice of Appeal with the FCA and in March 2024, the matter was heard by the FCA. In August 2024, the FCA released its decision and reversed the decision of the Tax Court. As a result, PC Bank reversed charges of \$155 million, including \$111 million initially recorded in the second quarter of 2022.

In the second quarter of 2023, the Federal government enacted certain commodity tax legislation that applied to PC Bank on a retroactive basis. A charge of \$37 million, inclusive of interest, was recorded for this matter. In the fourth quarter of 2023, Loblaw reversed \$13 million of previously recorded charges. The reversal was a result of new guidance issued by the Canada Revenue Agency.

Fair value adjustment of investment in real estate securities Choice Properties received Allied Class B Units as part of the consideration for the Choice Properties disposition of six office assets to Allied in 2022. Choice Properties recognized these units as investments in real estate securities. The investment in real estate securities is exposed to market price fluctuations of Allied trust units. An increase (decrease) in the market price of Allied trust units results in income (a charge) to operating income.

Fair value adjustment on investment properties The Company measures investment properties at fair value. Under the fair value model, investment properties are initially measured at cost and subsequently measured at fair value. Fair value is determined based on available market evidence. If market evidence is not readily available in less active markets, the Company uses alternative valuation methods such as discounted cash flow projections or recent transaction prices. Gains and losses on fair value are recognized in operating income in the period in which they are incurred. Gains and losses from disposal of investment properties are determined by comparing the fair value of disposal proceeds and the carrying amount and are recognized in operating income.

Gain on sale of non-operating properties In the third quarter of 2024 and year-to-date, Loblaw did not record any gain or loss related to the sale of non-operating properties (third quarter of 2023 and year-to-date – gain of \$13 million and \$12 million, respectively).

In the third quarter of 2023 and year-to-date, Choice Properties disposed of properties and incurred a loss which was recognized in fair value adjustment on investment properties. On consolidation, the Company recorded these properties as fixed assets, which were recognized at cost less accumulated depreciation. As a result, in the third quarter of 2023 and year-to-date, on consolidation, an incremental gain of \$2 million and \$7 million, respectively, was recognized in operating income.

Fair value adjustment of derivatives Loblaw is exposed to commodity price and U.S. dollar exchange rate fluctuations. In accordance with Loblaw's commodity risk management policy, Loblaw enters into exchange traded futures contracts and forward contracts to minimize cost volatility relating to fuel prices and the U.S. dollar exchange rate. These derivatives are not acquired for trading or speculative purposes. Pursuant to Loblaw's derivative instruments accounting policy, changes in the fair value of these instruments, which include realized and unrealized gains and losses, are recorded in operating income. Despite the impact of accounting for these commodity and foreign currency derivatives on Loblaw's reported results, the derivatives have the economic impact of largely mitigating the associated risks arising from price and exchange rate fluctuations in the underlying commodities and U.S. dollar commitments.

Charges related to settlement of class action lawsuits On July 24, 2024, the Company and Loblaw entered into binding Minutes of Settlement to resolve nationwide class action lawsuits against them relating to their role in an industry-wide price-fixing arrangement. In the second quarter of 2024, the Company and Loblaw recorded charges of \$256 million and \$164 million, respectively, in SG&A, relating to the settlement and related costs.

Transaction costs and other related recoveries In the second quarter of 2024, Choice Properties recorded a reversal of a transaction related provision for \$39 million that was determined to be no longer required.

ADJUSTED NET INTEREST EXPENSE AND OTHER FINANCING CHARGES The Company believes adjusted net interest expense and other financing charges is useful in assessing the ongoing net financing costs of the Company.

The following table reconciles adjusted net interest expense and other financing charges to GAAP net interest expense and other financing charges reported for the periods ended as indicated.

(\$ millions)	16 Weeks Ended		40 Weeks Ended	
	Oct. 5, 2024	Oct. 7, 2023	Oct. 5, 2024	Oct. 7, 2023

Fair value adjustment of the Trust Unit liability	(568)	219	(235)	613
Adjusted net interest expense and other financing charges	\$ 317	\$ 304	\$ 862	\$ 842

The following items impacted adjusted net interest expense and other financing charges in 2024 and 2023:

Recovery related to PC Bank commodity tax matter In the third quarter of 2024, \$10 million was recorded related to interest income on cash tax refunds on the PC Bank commodity tax matter discussed above.

Fair value adjustment of the Trust Unit liability The Company is exposed to market price fluctuations as a result of the Choice Properties Trust Units held by unitholders other than the Company. These Trust Units are presented as a liability on the Company's consolidated balance sheets as they are redeemable for cash at the option of the holder, subject to certain restrictions. This liability is recorded at fair value at each reporting date based on the market price of Trust Units at the end of each period. An increase (decrease) in the market price of Trust Units results in a charge (income) to net interest expense and other financing charges.

Management's Discussion and Analysis

ADJUSTED INCOME TAXES AND ADJUSTED EFFECTIVE TAX RATE The Company believes the adjusted effective tax rate applicable to adjusted earnings before taxes is useful in assessing the underlying operating performance of its business.

(i) See reconciliations of adjusted operating income and adjusted net interest expense and other financing charges above.

(ii) See the adjusted EBITDA table and the adjusted net interest expense and other financing charges table above for a complete list of items excluded from adjusted earnings before taxes.

In addition to certain items described in the "Adjusted EBITDA" and "Adjusted Net Interest Expense and Other Financing Charges" sections above, the following item impacted adjusted income taxes and the adjusted effective tax rate in 2024 and 2023:

Outside basis difference in certain Loblaw shares The Company recorded a deferred tax recovery of \$18 million in the third quarter of 2024 (2023 – \$18 million) and a deferred tax expense of \$14 million year-to-date (2023 – \$24 million) on temporary differences in respect of GWL's investment in certain Loblaw shares that are expected to reverse in the foreseeable future as a result of GWL's participation in Loblaw's NCIB.

ADJUSTED NET EARNINGS AVAILABLE TO COMMON SHAREHOLDERS AND ADJUSTED DILUTED NET EARNINGS PER COMMON SHARE The Company believes that adjusted net earnings available to common shareholders and adjusted diluted net earnings per common share are useful in assessing the Company's underlying operating performance and in making decisions regarding the ongoing operations of its business.

The following table reconciles adjusted net earnings available to common shareholders of the Company and adjusted net earnings attributable to shareholders of the Company to net earnings attributable to shareholders of the Company and then to net earnings available to common shareholders of the Company reported for the periods ended as indicated.

Notes to the Unaudited Interim Period Condensed Consolidated Financial Statements

Note 1. Nature and Description of the Reporting Entity

George Weston Limited (“GWL” or the “Company”) is a Canadian public company incorporated in 1928, with its registered office located at 22 St. Clair Avenue East, Toronto, Canada M4T 2S5. The Company’s parent is Wittington Investments, Limited (“Wittington”).

The Company operates through its two reportable operating segments: Loblaw Companies Limited (“Loblaw”) and Choice Properties Real Estate Investment Trust (“Choice Properties”). Effect of consolidation includes eliminations, intersegment adjustments and other consolidation adjustments. Cash and short-term investments and other investments held by the Company, and all other company level activities that are not allocated to the reportable operating segments, such as net interest expense, corporate activities and administrative costs are included in GWL Corporate.

Loblaw has two reportable operating segments, retail and financial services. Loblaw’s retail segment consists primarily of food retail and drug retail. Loblaw provides Canadians with grocery, pharmacy and healthcare services, health and beauty products, apparel, general merchandise and financial services.

Choice Properties owns, manages and develops a high-quality portfolio of commercial and residential properties across Canada.

Quarterly net earnings are affected by seasonality and the timing of holidays, relative to the Company’s interim periods. Accordingly, quarterly performance is not necessarily indicative of annual performance. Historically, Loblaw has earned more revenue in the fourth quarter relative to the preceding quarters in its fiscal year.

Note 2. Material Accounting Policies

The material accounting policies and critical accounting estimates and judgments as disclosed in the Company’s 2023 audited annual consolidated financial statements have been applied consistently in the preparation of these unaudited interim period condensed consolidated financial statements.

These unaudited interim period condensed consolidated financial statements are presented in Canadian dollars.

Amendments to IAS 7 and IFRS 7 In May 2023, amendments to International Accounting Standard (“IAS”) 7, “Statement of Cash Flows” and IFRS 7, “Financial Instruments: Disclosures” were issued to enhance the transparency of supplier finance arrangements. The amendments require further disclosure for supplier finance arrangements regarding the terms and conditions, the range of payment due dates, and how they affect an entity’s cash flows, liabilities and exposure to liquidity risk. The amendments are effective for annual reporting periods beginning on or after January 1, 2024 and required disclosures will be included in the notes to the Company’s 2024 audited annual consolidated financial statements.

STATEMENT OF COMPLIANCE These unaudited interim period condensed consolidated financial statements are prepared in accordance with IAS 34, “Interim Financial Reporting”, as issued by the International Accounting Standards Board and should be read in conjunction with the Company’s 2023 audited annual consolidated financial statements and accompanying notes.

These unaudited interim period condensed consolidated financial statements were approved for issuance by the Company’s Board of Directors on November 18, 2024.

Note 3. Future IFRS Accounting Standard and Amendments

Amendments to IFRS 9 and IFRS 7 In May 2024, amendments to IFRS 9, “Financial Instruments” and IFRS 7, “Financial Instruments: Disclosures” were issued. The amendments clarify the timing of recognition and derecognition for a financial asset or financial liability, including clarifying that a financial liability is derecognized on the settlement date. In addition to these clarifications, the amendments introduce an accounting policy choice to derecognize financial liabilities settled using an electronic payment system before the settlement date, if specific conditions are met. Also included in the amendments, are clarifications regarding the classification of financial assets, including those with features linked to environmental, social and corporate governance. Under the amendments, additional disclosures are required for financial instruments with contingent features and investments in equity instruments classified at fair value through other comprehensive income. These amendments are effective for annual reporting periods beginning on or after January 1, 2026. Early adoption is permitted, with an option to early adopt only the amendments to the classification of financial assets. The adoption will not have a material impact on the Company’s consolidated financial statements.

IFRS 18 In April 2024, IFRS 18, “Presentation and Disclosure in Financial Statements” was issued to achieve comparability of the financial performance of similar entities. The standard, which replaces IAS 1 “Presentation of Financial Statements”, impacts the presentation of primary financial statements and notes, including the statement of earnings where companies will be required to present separate categories of income and expense for operating, investing, and financing activities with prescribed subtotals for each new category. The standard will also require management-defined performance measures to be explained and included in a separate note within the consolidated financial statements. The standard is effective for annual reporting periods beginning on or after January 1, 2027, including interim financial statements, and requires retrospective application. The Company is currently assessing the impact of the new standard.

Note 4. Subsidiaries

GWL's ownership in Loblaw and Choice Properties is impacted by changes in Loblaw's common share equity and Choice Properties' Trust Units, respectively.

Note 6. Income Taxes

For the third quarter of 2024, income tax expense was \$303 million (2023 – \$202 million) and the effective tax rate was 40.8% (2023 – 17.6%). On a year-to-date basis, income tax expense was \$698 million (2023 – \$680 million) and the effective tax rate was 30.4% (2023 – 22.2%). The increase in the effective tax rate in the third quarter of 2024 and year-to-date was primarily attributable to the year-over-year impact of the non-taxable fair value adjustment of the Trust Unit liability and adjustments to certain tax provisions during 2023, partially offset by the impact of other non-deductible items.

PC Bank maintains and monitors a co-ownership interest in credit card receivables with independent securitization trusts, including *Eagle Credit Card Trust*[®] ("*Eagle*") and Other Independent Securitization Trusts, in accordance with its financing requirements.

Under its securitization programs, PC Bank is required to maintain, at all times, a credit card receivable pool balance equal to a minimum of 107% of the outstanding securitized liability. PC Bank was in compliance with this requirement as at the end of the third quarter of 2024 and throughout the first three quarters of 2024.

Consistent with the exemption originally granted by the TSX in 2023, Wittington, the Company’s controlling shareholder, is permitted to participate in the NCIB in a fixed proportion equal to 50% of Wittington’s pro rata share of the issued and outstanding common shares of the Company. Purchases of common shares from Wittington will be made during the TSX’s Special Trading Session pursuant to an automatic disposition plan agreement among the Company’s broker, the Company and Wittington. During the effective period of the ASPP, the Company’s broker may purchase common shares at times when the Company would not be active in the market. As at October 5, 2024, an obligation to repurchase shares of \$149 million (2023 – \$120 million) was recognized under the ASPP in trade payables and other liabilities.

Notes to the Unaudited Interim Period Condensed Consolidated Financial Statements

Note 14. Contingent Liabilities

In the ordinary course of business, the Company is involved in and potentially subject to, legal actions and proceedings. In addition, the Company is subject to tax audits from various tax authorities on an ongoing basis. As a result, from time to time, tax authorities may disagree with the positions and conclusions taken by the Company in its tax filings or legislation could be amended or interpretations of current legislation could change, any of which events could lead to reassessments.

There are a number of uncertainties involved in such matters, individually or in aggregate, and as such, there is a possibility that the ultimate resolution of these matters may result in a material adverse effect on the Company's reputation, operations, financial condition or performance in future periods. It is not currently possible to predict the outcome of the Company's legal actions and proceedings with certainty. Management regularly assesses its position on the adequacy of accruals or provisions related to such matters and will make any necessary adjustments.

The following is a description of the Company's significant legal proceedings:

Shoppers Drug Mart was previously served with an Amended Statement of Claim in a class action proceeding that has been filed in the Ontario Superior Court of Justice ("Superior Court") by licensed Associates ("Associates"), claiming various declarations and damages resulting from Shoppers Drug Mart's alleged breaches of the Associate Agreement. The class action comprises all of Shoppers Drug Mart's current and former licensed Associates residing in Canada, other than in Québec, who were parties to Shoppers Drug Mart's 2002 and 2010 forms of the Associate Agreement. On July 9, 2013, the Superior Court certified as a class proceeding portions of the action. A summary judgment trial of the matter was held in December 2022 and on February 17, 2023, the Superior Court released its decision in relation to those summary judgment motions (the "Decision"). The Superior Court dismissed the plaintiffs' claims on the majority of the issues including a request for damages at this stage of proceedings. The Court also held that Shoppers Drug Mart breached the 2002 form of Associate Agreement when it did not remit certain amounts that it received from generic drug manufacturers to Associates. On March 20, 2023, the plaintiffs filed a Notice of Appeal and on April 4, 2023, Loblaw filed a Notice of Cross-Appeal. A hearing for the appeals was held on February 14, 2024 and on February 15, 2024. On August 29, 2024, the Court of Appeal dismissed both the appeal and cross appeal, with the exception that the plaintiff's appeal was allowed to correct the amount Shoppers Drug Mart received in professional allowances during the class period. Accordingly, Loblaw has not recorded any amounts related to the potential liability associated with this lawsuit. Loblaw does not believe that the ultimate resolution of this matter will have a material adverse impact on its financial condition or prospects.

In 2017, the Company and Loblaw announced actions taken to address their role in an industry-wide price-fixing arrangement involving certain packaged bread products. The arrangement involved the coordination of retail and wholesale prices of certain packaged bread products over a period extending from late 2001 to March 2015. Under the arrangement, the participants regularly increased prices on a coordinated basis. Class action lawsuits were commenced against the Company and Loblaw as well as a number of other major grocery retailers and another bread wholesaler. On July 24, 2024, the Company and Loblaw entered into binding Minutes of Settlement with the lawyers representing consumers to settle those class action lawsuits for \$500 million. The Company and Loblaw will each pay for a portion of the settlement, with the Company paying \$247 million and Loblaw paying \$253 million. Loblaw will receive credit for the \$96 million it previously paid to customers in the form of Loblaw cards, resulting in it being required to pay \$157 million in cash towards the settlement. The settlement is subject to entering into a binding Settlement Agreement and the approval of the courts. In December 2019, a proposed class action on behalf of independent distributors was commenced against the Company (the "ID Class Action"). It is too early to predict the outcome of the ID Class Action but the Company does not believe that the ultimate resolution of such legal proceeding will have a material adverse impact on its financial condition or prospects. As a result of admission of participation in the arrangement and cooperation in the Competition Bureau's investigation, the Company and Loblaw will not face criminal charges or penalties. In response to such class action lawsuits, certain major grocery retailers have crossclaimed against the Company and Loblaw, and the Company and Loblaw believe such crossclaims are without merit.

In August 2018, the Province of British Columbia filed a class action against numerous opioid manufacturers and distributors, including Loblaw and its subsidiaries, Shoppers Drug Mart Inc. and Sanis Health Inc. The claim contains allegations of breach of the Competition Act, fraudulent misrepresentation and deceit and negligence, and seeks unquantified damages for the expenses incurred by the federal government, provinces, and territories of Canada in paying for opioid prescriptions and other healthcare costs related to opioid addiction and abuse in Canada. During the second quarter of 2021, the claim against Loblaw Companies Limited was discontinued. In May 2019, two further opioid-related class actions were commenced in each of Ontario and Quebec against a large group of defendants, including Sanis Health Inc. In February 2022, the plaintiff and Sanis Health Inc. agreed to settle the Quebec action for a nominal amount, with no admission of liability and for the express purpose of avoiding the delays, disruption, and expenses associated with the litigation. The settlement has been approved by the court and is now final. In December 2019, a further opioid-related class action was commenced in British Columbia against a large group of defendants, including Sanis Health Inc., Shoppers Drug Mart Inc. and Loblaw. The allegations in the Ontario, Quebec, and the civil British Columbia class actions are similar to the allegations against manufacturer defendants in the Province of British Columbia class action, except that these May 2019 and December 2019 claims seek recovery of damages on behalf of opioid users directly. In April 2021, Loblaw, Shoppers Drug Mart Inc. and Sanis Health Inc. were served with another opioid-related class action that was started in Alberta against multiple defendants. The claim seeks damages on behalf of municipalities and local governments in relation to public safety, social service, and criminal justice costs allegedly incurred due to the opioid crisis. In September 2021, Loblaw, Shoppers Drug Mart Inc. and Sanis Health Inc. were served with a class action started in Saskatchewan by Peter Ballantyne Cree Nation and Lac La Ronge Indian Band on behalf of all Indigenous, Metis, First Nation and Inuit communities and governments in Canada to recover costs they have incurred as a result of the opioid crisis, including healthcare costs, policing costs and societal costs. In October 2024, the claim was discontinued against Shoppers Drug Mart Inc. In January 2024, Shoppers Drug Mart Inc. was served with a second class action in Saskatchewan started by Lac La Ronge Indian Band. The case is brought on behalf of Band members and is claiming damages relating to abatement costs, the diversion of financial and other resources, the reduction in the value of the reserve lands and interests, and lost tax revenues. Shoppers Drug Mart Inc. is being sued as a representative of an international defendant subclass of opioid “dealers” and Sanis Health Inc. is a proposed supplier class member. Loblaw believes these proceedings are without merit and is vigorously defending them. Loblaw does not currently have any significant accruals or provisions for these matters recorded in the unaudited interim period condensed consolidated financial statements.

In July 2022, the Tax Court of Canada (“Tax Court”) released a decision relating to PC Bank, a subsidiary of Loblaw. The Tax Court ruled that PC Bank is not entitled to claim notional input tax credits for certain payments it made to Loblaws Inc. in respect of redemptions of loyalty points. PC Bank subsequently filed a Notice of Appeal with the Federal Court of Appeal (“FCA”) and in March 2024, the matter was heard by the FCA. In August 2024, the FCA released its decision and reversed the decision of the Tax Court. As a result, PC Bank reversed charges of \$155 million, including \$111 million initially recorded in the second quarter of 2022. In addition, \$10 million was recorded related to interest income on cash tax refunds. Certain taxation years subsequent to the periods covered by the FCA decision remain under review by the tax authorities.

INDEMNIFICATION PROVISIONS The Company from time to time enters into agreements in the normal course of its business, such as service and outsourcing arrangements, lease agreements in connection with business or asset acquisitions or dispositions, and other types of commercial agreements. These agreements by their nature may provide for indemnification of counterparties. These indemnification provisions may be in connection with breaches of representations and warranties or in respect of future claims for certain liabilities, including liabilities related to tax and environmental matters. The terms of these indemnification provisions vary in duration and may extend for an unlimited period of time. In addition, the terms of these indemnification provisions vary in amount and certain indemnification provisions do not provide for a maximum potential indemnification amount. Indemnity amounts are dependent on the outcome of future contingent events, the nature and likelihood of which cannot be determined at this time. As a result, the Company is unable to reasonably estimate its total maximum potential liability in respect of indemnification provisions. Historically, the Company has not made any significant payments in connection with these indemnification provisions.

Note 15. Segment Information

The Company has two reportable operating segments: Loblaw and Choice Properties. Effect of consolidation includes eliminations, intersegment adjustments and other consolidation adjustments. Cash and short-term investments and other investments held by the Company, and all other company level activities that are not allocated to the reportable operating segments, such as net interest expense, corporate activities and administrative costs are included in GWL Corporate.

The accounting policies of the reportable operating segments are the same as those described in the Company's summary of material accounting policies (see note 2). The Company measures each reportable operating segment's performance based on operating income less adjusting items and before depreciation and amortization ("Adjusted EBITDA"). No reportable operating segment is reliant on any single external customer.
