

Ms. Sheila Trenholm Biography

Ms. Trenholm, Laboratory Technologist in the Marine Institute (since 2013), is responsible for performing research activities and analytical services in the fields of by-products utilization, seafood product development and quality monitoring. Since 2013, she has played a key role in several chitin projects and has been responsible for the analytical work related to extraction, chitin/chitosan purity and wastewater characterization. In the proposed project she will be responsible for all analytical work, including characterization of chitin and wastewater, and the nutritional analysis of the protein sludge.
