

## David S-K. Ting

David S-K. Ting researched on Combustion and Turbulence, followed by Convection Heat Transfer and Fluid-Structure Interactions, prior to joining the University of Windsor. Dr. Ting is the founder of the Turbulence & Energy Laboratory and a professor in the Department of Mechanical, Automotive and Materials Engineering. Professor Ting supervises students on a wide range of research projects, primarily in the Energy Conservation and Renewable Energy areas. To date, he has co/supervised over seventy-five graduate students, co/authored more than one hundred and thirty journal papers, authored three textbooks, and co/edited seven books.
