

## **Jill Urbanic**

Dr. (Ruth) Jill Urbanic is a Professor in the Department of Mechanical, Automotive, and Materials Engineering at the University of Windsor. Her research focuses on advanced process design and manufacturing technologies, with a focus in process planning for machine tool and robotic based additive manufacturing systems. She has over 130 refereed publications in these areas. She is an award-winning researcher and is the 2013 Wighton Fellow (a national teaching excellence award for laboratory-based courses in Canadian undergraduate engineering programs).
