

Niki Bennett

Niki Bennett is the Science Coordinator with the Ontario Greenhouse Vegetable Growers (OGVG). Niki has been with OGVG since 2014 and oversees research projects on behalf of over 200 member-greenhouses who grow cucumbers, peppers and tomatoes in Ontario. Niki is also active in seeking out crop protection solutions, promoting plant health, advocating for increased research funding and involved in many provincial and national initiatives. The Ontario greenhouse vegetable sector represents approximately 3000 acres and an annual farm gate value of approximately \$960 million.
